

June, 2025

Dear Parents,

I had the opportunity to meet the current 5th grade students during “Step-Up Day” and I was truly impressed with their enthusiasm and positive attitude towards mathematics.

I am providing a packet of assignments to reinforce some of the most important skills and concepts Mrs. Rapoport taught them this year. On some of the assignments, there is not sufficient space to show work, so students should use an additional sheet of paper for this purpose. Each assignment should be attached to its work paper and turned in to me on the first day of school in August. I suggest that students try to complete one assignment each week, so they will not be overwhelmed at the end of the summer.

Supplies needed for next year:

- Math binder
- Plenty of pencils and erasers
- A ruler
- 200 sheets of graph paper

I am looking forward to working with these wonderful students in the coming year. Have a great summer.

Cindy Nutter
Upper School Math Teacher
