

May, 2026

Dear Parents of rising 7th Grade students,

It has truly been a pleasure teaching your students in 6th grade math this year. I have been impressed by their persistence and positive attitudes towards learning, and have seen tremendous growth in their skill levels. I am so looking forward to meeting the challenges of 7th grade math with them next year.

I am providing a packet of assignments to reinforce some of the most important skills and concepts covered this year. On some of the assignments there is not sufficient space to show work, so students should use an additional sheet of paper for this purpose. Each assignment should be attached to its work paper and turned in to me on the first day of school in August. I suggest that students try to complete one assignment each week, so they will not be overwhelmed at the end of the summer!

Supplies needed for math next year:

- Math binder
- Plenty of pencils and erasers
- A ruler
- 200 sheets of graph paper

7th grade is my homeroom class. I will be appreciative if students bring in the following supplies for homeroom:

- Tissues
- Wet wipes

Have a wonderful summer!

Cindy Nutter
Upper School Math Teacher
